The Moors Bar Theatre has been running for 5 years in Crouch End and first participated in the Camden Fringe in 2014.

The Moors Bar Theatre is owned and run by an actor who understands well the stresses and complications of putting on a fringe production in a pub theatre.

Another advantage of this pub / theatre is the fact that the theatre and bar are not split over different levels. When entering the bar you also enter the theatre. This allows you to set the atmosphere of your piece early and also gives you a nice personal and private feel to your shows. Your guests do not have to fight to get to the bar at the beginning, middle or end of your show.

Moors theatre will do its utmost to make your experience and productions run as smoothly and successfully as possible.
